SBA DEBT RELIEF

FINANCIAL REPRIEVE TO SMALL BUSINESSES DURING THE COVID-19 PANDEMIC
SBA Debt Relief

Overview

• The SBA will automatically pay the principal, interest, and fees of current 7(a), 504, and microloans for a period of 6 months.

• The SBA will also automatically pay the principal, interest, and fees of new 7(a), 504, and microloans issued prior to September 27, 2020

• **Additional Debt Relief** - SBA Serviced Disaster (Home and Business) Loans: If your disaster loan was in “regular servicing” status on March 1, 2020, **the SBA is providing automatic deferments through December 31, 2020**
SBA Debt Relief

What does an “automatic deferral” mean to borrowers?

• Interest will continue to accrue on the loan.
• 1201 monthly payment notices will continue to be mailed out.
• The deferment will NOT cancel any established Preauthorized Debit (PAD) or recurring payments.
• Borrowers that have established a PAD through Pay.Gov or an OnLine Bill Pay Service are responsible for canceling these recurring payments.
• Borrowers preferring to continue making regular payments during the deferment period may continue. SBA will apply those payments normally.
• After this automatic deferment period, borrowers will be required to resume making regular principal and interest payments.
• Borrowers that cancelled recurring payments will need to reestablish the recurring payment.

COMMON ISSUES SMALL BUSINESSES MAY ENCOUNTER
Common Issues for Small Businesses

• **Capital Access** – Financial capacity to make payroll, maintain inventory and respond to market fluctuations. Businesses should prepare by exploring and testing their capital access options.

• **Workforce Capacity** – Incidents have just as much impact on your workers as they do your clientele.

• **Inventory and Supply Chain Shortfalls** – Adequate supplies of inventory for a sustained period and/or diversify your distributor sources in the event one supplier cannot meet demand.

• **Facility Remediation/Clean-up Costs** – There may be a need to enhance the protection of customers and staff by increasing the frequency and intensity by which your business conducts cleaning of surfaces frequently touched by occupants and visitors.
Common Issues for Small Businesses

• **Insurance Coverage Issues** – Many businesses have business interruption insurance; Now is the time to contact the insurance agent to review the policy.

• **Changing Market Demand** – There may be access controls or movement restrictions established which can impede customers from reaching businesses. [SBA’s Resources Partners and District Offices](https://www.sba.gov) have trained experts who can help to craft a plan to navigate any rapid changes in demand.

• **Marketing** – It’s critical to communicate openly with customers about the status of operations, what protective measures business implemented, and how they (as customers) will be protected when they visit your business.

• **Plan** – Conduct a tabletop exercise to simulate potential scenarios and how the business management and staff might respond to the hypothetical scenarios. For examples of tabletop exercises, visit FEMA’s website at: [https://www.fema.gov/emergency-planning-exercises](https://www.fema.gov/emergency-planning-exercises)
